

SOLUTION OVERVIEW

# ADP's GetWired™ Internet Manager

## The Internet Can Be a Powerful Tool — As Long as Your Employees Are Using It the Right Way

### INTERNET MONITORING – FOR NO CHARGE

Now for a Limited time ADP's Network Solutions team will monitor your dealership Internet Activity. We will provide a detailed report of what sites your staff is surfing, which sites are most frequently visited, and which sites can easily be filtered by our GetWired Internet Manager offering. This **FREE** service monitors your employee Internet usage for a period of one week. As a valued customer, after one week, you will receive a **FREE** complimentary report that provides you with important Internet use information.

Your Internet Usage Assessment report will include the following assessment categories:

- **Inappropriate Content** – Sex, nudity, adult content, gambling, lingerie, swimsuit, and other questionable content.
- **Security Vulnerability** – Internet usage subjected to spyware, phishing, viruses, and malicious mobile code.
- **Productivity Hindrance** – Shopping, auctions, message boards, freeware, software downloads, online brokerage/trading, instant messaging, and pay-to-surf sites.
