

SELL CARS, PARTS AND SERVICE PROFITABLY.™

## WorkStation Services – e-Mail Server

ADP's WorkStation Services provides the solutions your dealership needs to reduce the cost and headache of managing and supporting PC-based workstations.

To find out more about WorkStation Services – e-Mail Server please contact us at 1-888-424-6342 or visit [www.DealerSuite.com](http://www.DealerSuite.com).

### LOWER THE TOTAL COST OF MANAGING DEALERSHIP e-MAIL

To compete in today's retail automotive environment, dealers must find more efficient ways to communicate within the dealership and with their customers. e-Mail is at the top of the list. Successful dealers understand the value of having their own e-Mail systems but are concerned with the cost of building and maintaining them. WorkStation Services – e-Mail Server from ADP is a professional, electronic messaging system that enables you to optimize your dealership's business communications.

### Superior Functionality

ADP's WorkStation Services – e-Mail Server offers your dealership enhanced messaging features including scheduling, contact and task management, and since the e-Mail Server is from ADP it will support Unified Messaging with ADP's Network Phone. ADP's e-Mail Server enables you to synchronize your Inbox, Calendar, and Contacts and Tasks lists with mobile devices such as Pocket PC and Smartphones so you can remotely check your appointments, and get email on the go.

### Solid Foundation

WorkStation Services – e-Mail Server is built on Microsoft Windows Server 2003 and Microsoft Windows Exchange Server so you know it is industry standard and will support a wide range of devices and add-on applications.

### Consider these benefits:

- Reduce cost of ownership through a more efficient e-mail system that better serves your dealership needs.
- Increase communication flexibility and utilization by having mobile, remote, and desktop e-mail access.
- Increase the reliability and performance of your e-mail network.

### SINGLE SOURCE SOLUTION

ADP's e-Mail Server solution is part of an entire suite of Microsoft-based hardware and applications all focused on making it easier for dealerships to sell more cars parts and service, profitably.
